Miss Berthena Fryman, who died in the Morning Glory neighborhood last Thursday, at the age of 93, very rarely left her home. She had never been to Cynthiana or Carlisle, both of which towns are in easy driving distance. She had never seen a railroad train. She never had a lamp in her house, nor a cook stove. The cooking was done on the hearth.

FARMER'S WIFE HAD HEAP TO DO

Mrs. Shepherd Was in Bad Shape
When She Could Not Stand on
Her Feet.

Durham, N. C.—"I am a farmer's wife," writes Mrs. J. M. Shepherd, of this city, "and have a heap to do."

"Four months ago I could not stand on my feet, to do anything much, but at this time I do the most of my work. I took Cardui and it did me more good than all the doctors."

"You don't know half how I thank you for the Cardui Home Treatment. I wish that all women who suffer from womanly trouble would treat themselves as I have."

Ladies can easily treat themselves at home, with Cardui, the woman's tonic. It is easy to take, and so gentle in its action, that it cannot do anything but good.

Being composed exclusively of vegetable ingredients, Cardui cannot lay up trouble in your system, as mineral drugs often do. Its ingredients having no harsh, medicinal effects, and being non-poisonous and perfectly harmless, Cardui is absolutely safe for young and old.

Ask your druggist. He will tell you to try Cardui.

N. B.—Write to: Ladies' Advisory Dept., Chattanooga Medicine Co., Chattanooga, Tenn., for Special Instructions, and 64-page book, "Home Treatment for Women," sent in plain wrapper, on request.

WOMEN'S WOES.
Maysville Women Are Finding Relief at Last.

It does seem that women have more than a fair share of the aches and pains that afflict humanity; they must "keep up," must attend to duties in spite of constantly aching backs, or headaches, dizzy spells, bearing-down pains; they must stoop over, when to stoop means torture. They must walk and bend and work with racking pains and many aches from kidney ill. Kidneys cause more suffering than any other organ of the body. Keep the kidneys well and health is easily maintained. Read of a remedy for kidneys only that helps and cures the kidneys and is endorsed by people in this locality.

Mrs. Eliza Carson, Front street, Vanceburg, Ky., says:

"My kidneys were disordered for several years and I suffered from attacks of lumbago. My back ached intensely and the kidney secretions were profuse at times, while at others, scanty and distressing in passages. If I attempted to stoop, sharp twinges darted through my kidneys and often I became very weak. I finally began taking Doan's Kidney Pills and they proved of benefit in every way. I know of other persons who have used Doan's Kidney Pills with satisfactory results."

there and extinguished the blaze in a jiffy.

Black Voile Skirts \$8½ to \$15

The dressy black skirt is like an umbrella—one of the needfuls taken for granted. And the majority
of women insist it shall be of voile—for lightness, for dressiness, for style. Very attractive models recent

SCARED BY BRACKEN NIGHT RIDERS

Leads Kinney, living three miles from Au-

soldiers to his home for protection. Kinney
claims that a band of men visited his home a
few nights ago with the intention of taking
him out and whipping him, but that with the
aid of four tenants, armed with shotguns, he
put the invaders to rout. One of the "night
riders" was heard to cry out, as though
wounded, as the shots were fired.

The District Board at Lexington may be asked to extend the time for pooling to November 1st and to sanction the sale of the 1909 pooled tobacco on the open market there, beginning the first week in October. There are now about 2,500 hogheads of the 1909 tobacco in storage at Lexington, and the remainder, it is said, is in condition to be shipped there on short notice. The plan, it is said, is to offer the tobacco by grades in lots of 14 hogheads—a car load.

At this point the horse was caught and other damage was done.

When You Think

of the pain which many women experience with every menstruation, it makes the gentleness and kindness always associated with womanhood seem to be almost a miracle. In general no woman rebels against what she regards as a natural necessity there is no woman who would not gladly be free from this recurring period of pain.

POOLERS WAKING UP

Important Meeting Today at Lexington May Decide Fate of 1910 Crop

This Morning's Lexington Herald.

The District Board of the Burley Tobacco Society will convene in adjourned session at the Courthouse this afternoon. The Executive Board will hold a session in the forenoon, and probably will submit important recommendations to the other body. Various suggestions as to means to stimulate pooling, and insure the success of the campaign will be considered.

The meeting probably will occupy two days, and the eyes of the entire Burley District will be on the action of the Board. Among matters of first moment will be the selection of the date on which the growers will vote upon the issue of pool or no pool. The matter of marketing the tobacco in the 1909 pool also will hold especial interest. A number of visitors from over the District are expected to be present.

Free Sample For Baby's Ills

Something can and must be done for the puny, crying baby, for the child that refuses to eat and is restless in its sleep. And since the basis of all health is the proper working of the digestive organs, look first to the condition of the stomach and bowels.

A child should have two full and free movements of the bowels a day. This emptying of the bowels is very important, as with it comes a clear head, a lightness of step, good appetite and sound sleep. But it is equally important to know what to give the child in the emergency of constipation and indigestion. Cathartics are too strong and salts and other purgatives are not only too strong, but the child refuses them because of their bad taste. Have you ever tried Dr. Caldwell's Syrup Pepsin? It is a liquid tonic that families have been using for a quarter of a century. It is mild, pleasant-tasting and promptly effective. It is good for you as well as the child, but there is nothing better to be found for children. They like its taste—you will not have to force them to take it.

First of all, if you have not yet used it, Dr. Caldwell would like to send you a sample bottle free of charge. In this way you can try it before buying. Later, when convinced of its merits, you can get it of your druggist at fifty cents and one dollar a bottle, just as thousands of other families are doing. The family of Mr. D. W. Spangler of Strattonville, Pa., as well as that of Mr. A. F. Johnson of Walnut Grove, Tenn., started with it in that way and now write that it is their one family necessity next to food itself. If you are unfortunate enough to have a sickly child, one given to constipation and indigestion, you should send for a free sample of this remedy.

Dr. Caldwell personally will be pleased to give you any medical advice you may desire for yourself or family pertaining to the stomach, liver or bowels absolutely free of charge. Explain your case in a letter and he will reply to you in detail. For the free sample simply send your name and address on a postal card or otherwise. For either request the doctor's address is Dr. W. B. Caldwell, 11,507 Caldwell building, Monticello, Ill.

J. JAS. WOOD & SON, Druggists, Maysville.

Children's Eyes

Should be examined by the optician who uses modern instruments and modern methods. The trial case and test card are worthless if the child cannot read. Would your physician give the child an assortment of drugs to taste and then prescribe the one the child liked best? Does the child know any more about optics than he knows about drugs?

Get your own glasses where you please; you have had your chance in life. Give the child a chance by taking him to the best optician you can find.

Gas Light Talks—No. 14.

Consumption and Cost.

In course of these Talks, we have said that one of the principal factors in the making of gas rates, is the consumption.

That statement applies with even greater force to the determination of electric rates.

The larger the consumption of current, the less, within certain limits, it costs to generate and distribute.

Now, in yesterday's Talk, we announced that a new and lower schedule of electric rates would go into effect on October 1st. These rates will be—

Ten cents per kilowatt hour for residence lighting, instead of fifteen cents, as at present.

Ten cents per kilowatt hour for the first thirty hours of connected load on interior business lighting, and five cents per kilowatt hour for all over that.

Five cents per kilowatt hour for all window-display and outside sign lighting.

And the present sliding scale for very large consumers will be continued.

For years, we have been gradually improving our plant and adding to its efficiency.

We have done this in order to furnish our customers with adequate service and to provide for the future needs of Maysville.

It is our firm belief that this city is going to grow, and it is necessary for an electric plant to be always just a little ahead of any demand that may be put upon it.

During the past year, the consumption of current in Maysville has increased quite perceptibly and this increased consumption has naturally resulted in a decrease in the unit cost at the power station.

And this decrease has been of sufficient volume to warrant us—by stretching things somewhat—in making these lower rates—

Thus giving YOU the benefit of the lower unit cost which goes with your increased consumption.

But this decreased cost is not great enough, of itself, to warrant these new rates, were there not other considerations.

And what these considerations are we shall tell you in tomorrow's Talk.

Maysville Gas Company

Horace J. Cochran, President.
